

TECHNICAL DATA

Siemens HMI 7" Touchscreen
Allen Bradley PLC
Saginaw NEMA 4 Panel

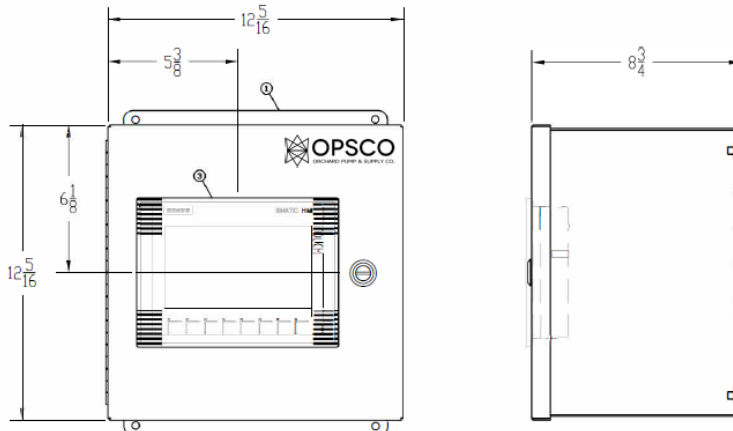

DISPLAY DATA

- Pump status
- Fault status & code
- Frequency reference (HZ)
- Output frequency (HZ)
- Output current
- Drive status
- Terminal inputs (3)
- Flow rate (with 4-20mA meter)
- Total volume accumulated
- Pump PID setpoint
- Pump PID feedback
- Suction pressure
- Cumulative operation time (hr:min)
- Time to alternate (multiplex systems)

MONITORING & CONTROL

- Remote control and monitoring available via ethernet, Wi-Fi, or cellular
- IOS & Android compatible
- H-O-A control of each pump locally and remotely
- Trending and historical data collection
- Remote VFD programming
